

FOREIGNERS

Are Interested in the Proposed Tariff Changes.

Ambassadors and Ministers in Washington Keeping a Watchful Eye.

The Wilson Bill Will Require a Broad Judgment of Many Tariff-Experts Will Receive Decisions on the Basis of a Million of Dollars on How Sugar.

WASHINGTON, Dec. 16.—The proposed tariff changes will very much touch the trade with other countries. Ambassadors and ministers located at Washington are keeping a watchful eye on every phase of the tariff development. Most of the foreign representatives have secured copies of the bill reported by the ways and means committee for transmission to their respective governments. It will interfere with commercial treaties and compel an entire re-arrangement of tariff relations.

This is the true case of the tariff reciprocity treaty negotiated by Mr. Haines, Spain, with which Gen. Foster effected a treaty and other South American republics.

Senor Don E. Demunaga, Spanish minister and the treaty conferred many commercial benefits to the United States. American flour was admitted into Cuba at a much lower rate of duty than before. This feature resulted in the shipment of thousands of barrels of American flour to Cuba. Many other articles of American production were admitted to Cuba and other Spanish colonies either free of duty or at reduced duties. On the other hand Cuba received benefit by the remission of duty on raw sugar.

As to tobacco also, the commercial relations between the countries will undoubtedly be aided by a reduction of duty.

The Japanese minister is interested in the progress of the tariff bill. At the legation it is said Japanese silks are imported in enormous quantities into the country. As the silk schedule of the tariff bill is very lightly touched there is likely to be little change in the Japanese exportations.

SILVERITES IN CONFLAT.

Behind Closed Doors the White Metalists Are at It.

WASHINGTON, Dec. 16.—The conference of the leading silver of the conference to devise ways and means to continue the fight for free silver coinage opened Friday at the headquarters of the bimetallic league. Most of the famous silver leaders were present, including Gen. Weaver and Gen. Field, of Iowa, Senator Stewart of Nevada, Capt. John H. Althaus, of Alabama, Northern Whitehead, lecturer of the National Grange, Norton Frewen, the British authority on bimetalism, Col. Beverly Virginia, Judge Sheldon, of Connecticut, and many others.

Mail for Grand Master Workman Sovereign, of the knights of labor, has been received, in which he congratulated himself is expected later. In all the conference number about fifty, representing the bone and sinew of the free silver movement.

The conference is proceeding behind closed doors. Gen. Warner, president of the bimetallic league, has stated that the meeting would probably last for several days, as it was intended to fully canvass the sentiment of the bimetallics and reach some common ground among them as to the course to be pursued.

Negro Murdered by White Boys. CHATTANOOGA, Tenn., Dec. 16.—Friday night, as the result of a boyish quarrel, a young negro named Jim, under about two-thirds grown, was killed by one or two white lads several years younger, being stabbed to the heart. The little negro was carried and have not been heard, although the police are hunting for them. The lads went into a store near at hand, loaded with their dead and disappeared.

Horticultural Society Officers. COLUMBUS, O., Dec. 16.—The State Horticultural society re-elected the following officers Friday: President, Geo. W. Campbell, Dayton; vice president, O. W. Aldrich, Columbus; secretary, W. W. Farnsworth, Waterville; treasurer, N. Ohmer, Dayton; executive committee, H. Halbach, W. R. Lazenby and N. Ohmer.

The Same to Mayor Swift. CHICAGO, Dec. 16.—American Federation of Labor delegates refused Friday to permit Mayor Swift to address them. There was considerable opposition to the action on the ground that inasmuch as Gov. Algie had been invited to speak the same courtesy should be extended to Mr. Swift.

"Fat Sallie" Dead. LAWRENCEBURG, Ky., Dec. 16.—The famous Negro widow, Sallie McAllister, commonly known as "Fat Sallie," is dead at her home in Springfield, a few miles southwest of here. She was the largest woman in existence, having at one time weighed 750 pounds.

A Soldier's Suicide. SAN FRANCISCO, Pa., Dec. 16.—Sgt. R. Harris, Battery A, Fifth artillery, stationed at Alcatraz, committed suicide Friday morning by blowing out his brains with a rifle, and was buried by the army twenty-four hours and came from the east three years ago.

Fourteen Killed in a Collision. LONDON, Dec. 16.—A dispatch published here says that fourteen people have been killed in a collision in a railroad collision near Novosvika, Russia.

A MOTHER'S WOE.

She Bought Burial for Her Wayward Son's Body, But the Stern Law of the Nation Had Already Given It Up for the Nation. COLUMBUS, O., Dec. 16.—A photo of a fair was made public Friday. A fine looking, old white-haired woman came all the way from Chicago to obtain the body of a wayward son who died in the penitentiary, but on reaching the institution was stricken with the cruel information that the boy's remains had been turned over to the medical college and had been dissected. The name of the convict was Robert Pennypacker. He was a two-year man from Athens county, where he was convicted of burglary, and the term of sentence would have expired Thursday.

Some two weeks ago he contacted pneumonia, and a week ago Thursday he suddenly died. The prison officials knew that he had a mother living in Chicago, but did not know her address or even her full name. Telegrams and letters went sent, but they did not reach the old lady until Thursday. She is very poor, and not being able to obtain money for a railroad ticket she had to be carried to the city and told her story. She had not heard from her wayward boy for five years, and she wanted the body of her son to be buried in his boy's decent burial. A pass was furnished her to Columbus, but it was too late, for as required by law the body had been given to the medical college. Mrs. Dempsey thought her son had money on deposit at the penitentiary, but it was only five cents, and she found herself penniless.

Gov. McKinley learned of her condition and gave her money to obtain food and Friday afternoon furnished her a ticket home on raw sugar.

As to tobacco also, the commercial relations between the countries will undoubtedly be aided by a reduction of duty.

The Japanese minister is interested in the progress of the tariff bill. At the legation it is said Japanese silks are imported in enormous quantities into the country. As the silk schedule of the tariff bill is very lightly touched there is likely to be little change in the Japanese exportations.

BOGUS BOMBS

Are Used to Scare the Anti-Anarchists—Anarchists Turn Practical Jokers and Laugh.

PANAMA, Dec. 16.—The excitement growing out of the threats of alleged anarchists continues. It is kept up in a measure by practical jokes. The people have been given to understand that they are to be stuffed with nothing more dangerous than emery, which resembles gunpowder and cotton.

Their discovery creates terror, and the police are kept busy in carting the things off to the prefecture. One of these sham affairs was left at the house of M. de Rothschild, one of the great bankers. It will go back with these jokes if they get into the hands of the police. The authorities have determined to close the city for a few days as a resort of anarchists and extreme socialists, if the incendiary speeches made there are continued.

SLAUGHTERING SAVAGES.

Bloody Reprisals for the Butchery of Whites.

VICTORIA, B. C., Dec. 16.—The torpedo gunboat boomers of the Australian navy, returned from New Hebrides to her headquarters shortly before R. M. S. Arava sailed for this port. The boomers had been cruising since April, and in company with the French cruiser Scorp visited and fired on native settlements on the islands of Perou, and near the village of the tribes now to have butchered white men. Many of the islanders were also arrested and fined or imprisoned, according to the extent of their guilt.

The Dayton Guilt for Insane. COLUMBUS, O., Dec. 16.—The thirty-third annual report of the Ohio State Insane Asylum, filed with the governor Friday afternoon. They ask for appropriations aggregating \$44,000 of which \$10,000 is to be used for electric light plant. The daily average of inmates has been 731. The proportion of recoveries has been 30.36 for males, and 24.61 for females. The trustees reported the death of George Smith, an inmate, on June 18, under circumstances which cast suspicion upon two attendants in Ward 8, who are now under indictment for manslaughter. As they have not yet been tried, the question of their guilt is still undecided. The total expenditures for the year were \$118,000.00. The per capita cost is \$135.15.

Worked the Baited-Nod Scheme. LIMA, O., Dec. 16.—John Fox, a rich farmer, was visited a couple of weeks ago by two slick strangers purporting to be piano agents. They wanted to sell him an instrument. He thought the price too high, and they went away saying they would see if they could sell some other in the neighborhood. They came back and said they had sold two others, which made the price of his very low. He signed a contract to take the instrument, and it turns up a sixty-day note in bank calling for \$4,500.

Bedford Greener Shoots Himself. POMEROY, O., Dec. 16.—Mathias Lieb, a retired proctor, got up at five o'clock and going into his old store room, shot himself through the heart with a 30-caliber American building revolver, causing instant death. The body was found in his night clothes. He was 70 years of age, and his mind was deranged as the result of long illness.

Albert Leonard Dead. ZANESVILLE, O., Dec. 16.—Coroner Smith rendered his verdict Friday in the case of Albert Leonard, who was found dead at Columbus Insane asylum, to the effect that the deceased died of blood poisoning resulting from an abscess on the arm, and he finds no evidence of foul treatment by attendants at the asylum.

House Passes a Bill Conferring Statehood Upon Her.

The Consideration of New Mexico Will Be Entered Upon Soon.

It Will Not Be Surprising if Oklahoma, Colorado, May Become a State in a Few Years After the Territory Before the End of the Year.

WASHINGTON, Dec. 16.—The territory of Arizona, Friday, as fortunate as her sister territory, Utah, two days ago. By a vote of 183 to 10 the house of representatives passed the bill conferring statehood upon that territory. New Mexico is next on the list. The consideration of the New Mexico statehood will be entered upon immediately, and it will not be surprising if Oklahoma, which a few years ago was still a hunting ground of Indians, would have statehood conferred upon it as far as the house is concerned before the end of the year.

The house seems possessed of a spirit for manufacturing new states. Speaker Crisp and his two democratic associates on the rules committee are working very hard for this policy. A "continuing" bill has been given the friends of these statehood bills, which means that they can have possession of the house after the routine business of the morning has been disposed of, and they will have disposed of all such bills as can be contemplated.

This unusual activity on the part of the house, naturally aroused comment. The committee on rules had promised several other members to devote some of the days this week and next to the consideration of bills for the discussion of various measures. Notably, Mr. Bailey, of Texas, who had a bankruptcy bill, was disappointed. The committee on its consideration, but by a sudden change the rules committee disregarded all promises and set the house to work on statehood bills.

Republican senators, who are of the Jones-Dubois stripe, and above all other things, free silver men, have displayed remarkable interest in the discussion of the house over the various statehood bills, and some have been on the floor every day listening to the debate. It is a complete tally on the votes. All new territories upon which statehood has thus far been conferred by the house have free silver tendencies. The free state bill passed by the house and senate means at least one new free silver senator, and in the case of some territories it means more. It is evident, therefore, that the free silver element in both the senate and house has recovered from the blow dealt it by the passage of the conditions renewal bill, and is mapping out a campaign for future action.

By bills introduced in both branches the agitation of silver coinage has been renewed and the strength of the silver forces is to be bolstered up in the senate by the addition of enough new free silver senators to make the hope of successful legislation for silver.

What the House is Doing.

WASHINGTON, Dec. 16.—It did not appear probable when the house met on Friday that the democrats would be able to muster a quorum to allow the bill to proceed with the debate on the Arizona statehood bill. Less than 100 members were present. On motion of Mr. Lord, of California, January 1, 1904, was set as a day to pay tribute to the memory of Senator Stanford. The senate is not in session.

Died on His Birthday.

WASHINGTON, Dec. 16.—Hon. Alpheus F. Haymond, ex-judge of the supreme court of appeal, died at his home in Fairmont, Friday night. Judge Haymond was born in 1828, and died on his seventieth birthday. He was one of the ablest jurists in the south, and was on the supreme bench for ten years.
